Mallorca Medical Group Spain S.L.P

## Welcome to Mallorca

We are a medical group dedicated to the Plastic and Cosmetic Surgery.

Many of our patients contact us via our website ([www.mallorcamedicalgroup.com](http://www.mallorcamedicalgroup.com)) from all over Europe and come to Mallorca to have their operations and medical treatments. These patients are able to book their treatments and have their consultations from their own home country.

All our treatments are carried out by our **Fully Registered Plastic Surgeon** in Spain and in the General Medical Council UK (Please ask for details or visit [www.mallorcamedicalgroup.com](http://www.mallorcamedicalgroup.com)).

Now you can benefit from the high standard treatments and affordable prices that we can offer. Since you are having your deserved holiday with us, we would like to suggest you the possibility of taking advantage of these days and return home renewed and with refreshed look.

The treatments we propose to you **do not involve any operation** and you can continue to enjoy your holiday immediately after. We can always give you some advice about our surgical treatments.

These are our prices; compare the advantage against UK cost:

	Mallorca Medical Group	UK average Cost
Dermal Fillers:	<b>£195</b> (250€ / ml)	<b>£400-£500</b> / ml
Botox Vistabel	<b>£255</b> full face (325€)	<b>£400</b>

**BOTOX VISTABEL  
(Botulinum toxin A)**

Plastic & Cosmetic Surgery

BOTOX VISTABEL® is one of the most popular temporary wrinkle removal techniques available. It works by relaxing the facial muscles that contract and cause wrinkles such as **frown lines between the eyebrows and crows feet**. Over time these wrinkles will become permanent even when you are not frowning. You will be delighted to see how these wrinkles will smooth out over a few days and restore your face to a more youthful and relaxed look.

**What results are expected?**

BOTOX VISTABEL® can be used to combat crow's feet, frown and forehead line. A series of tiny injections are administered directly into the area and effects are experienced after approximately 48 hours and for a period of 4-6 months. [The full effects may take 1-2 weeks to develop].

**How long does the treatment take?**

It will take about 15-30 minutes for the treatment, depending on the area to be treated.

BOTOX VISTABEL® is a registered trademark of Allergan.

## DERMAL FILLERS

Reabsorbable  
Non animal origen

Mallorca Medical Group

Plastic & Cosmetic Surgery

**ESTHÉLIS®** are two examples of the newest technology in wrinkle treatments and facial enhancement without surgery. These so called derma fillers, can be injected into the laugh lines (labial nasal fold) that stretch from your nose to the side of your mouth. Fillers are also used to increase the volume of your lips, giving a more healthy and vital appearance.

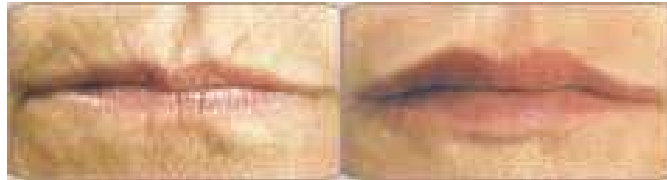

Unlike collagen injections, these second generation fillers are not based on animal extracts and have no risk

of allergic reactions

Fillers can also be used to improve or enhance facial structures such as:

- Filling in acne scars.
- Enhancing cheek bones to make them fuller and more defined.
- Enlarging lips for a fuller and softer pout.
- Correcting lip deformities or asymmetry
- Non-surgical nose-job to fill in dips and valleys in your nose bridge.

- Filling hollows under the eyes that contribute to dark circles

Other trends include:

- Vaginal rejuvenation
- Nipple enhancement

**Q How long does ESTHÉLIS® last?**

A The average treatment results last six months or even longer.

**Q What should patients do prior to treatment?**

A Patients should avoid taking aspirin, non-steroidal anti-inflammatory medications, St. John's Wort, or high doses of Vitamin E supplements for one week prior to treatment. This will help to minimize any bruising or bleeding at the injection site.

**ESTHÉLIS® is degraded?**

A No. ESTHÉLIS® is completely degraded, leaving absolutely no traces of the injected material in the body.

**Q Is ESTHÉLIS® safe?**

A Yes. ESTHÉLIS® has been used safely by dermatologists and plastic surgeons worldwide. Because ESTHÉLIS® is non-animal-based and fully biocompatible, allergy testing is not required. This quality virtually eliminates any risk of animal-based disease transmission or allergic reaction. The most commonly reported side effects were temporary redness and swelling at the injection site. These effects typically resolve within two to three days.

**YOU CAN BOOK YOUR TREATMENT NOW**

## COSMETIC SURGERY

At Mallorca Medical Group we are primarily a surgical group dedicated to correct body deformities and enhance body features.

If your stay in Mallorca is of 4 days and over you may consider having some of the surgical enhancing methods that we describe below. These 4 days are needed to be able to assess the wounds and remove any stitches if needed i.e. upper eyelid correction. The minimum length of stay needed for a breast enlargement is 7 days.

All the procedures are carried out in a fully equipped state of the art private hospital, by experienced fully registered surgeons both in Spain and in the UK.

If you think you may be a candidate for any of these procedures please call us for a free consultation.

This is a list of some of the procedures that we perform:

### The Breast

- ✦ Breast enlargement
- ✦ Breast uplifting
- ✦ Breast Reduction
- ✦ Nipple and areola reduction
- ✦ Male chest augmentation

### The Body Contour

- ✦ Tummy tuck
- ✦ Liposuction
- ✦ Arm lift
- ✦ Thigh lift
- ✦ Calf augmentation

### Genitalia

- ✦ Labia reduction
- ✦ Labia augmentation

### The Face

- ✦ Nose Job
- ✦ Ear pinning
- ✦ Eyelid surgery
- ✦ Short Scar Face lift (local anaesthesia)
- ✦ Neck lift
- ✦ Double chin correction
